LET THOSE WHO HAVE DOUBTED Near the mouth of Coal Creek, where the Company has the virtues of Bull's Cadaok Bitters, if any such there large quantities of lands salt water has been discovered

equal in quality to the Kanawha. This water was pro-cured some 35 years ago by boring, soon after, the On-ondaga salt finding its way down the Wabash and Erie Canal, Mr. Thomas, the proprietor, finding himself un-able to compete with it, abandoned the manufacture. In be, read the following certificate from gentlemen well his boring he encountered that which recently disclosed facts prove to have been coal oil.

These lands all lie in close proximity to the Wabash and Erie Canal, some of them upon its banks.

Mr. John McManomy, the business agent of the company, has returned from a tour of observation of the oil

regions of Pennsylvania, convinced that the lands leased by the company, in Fountain and Parke counties, has, so far as the general formation of the country and the surface indications present themselves, a stong analogy in the oil and mineral substances as found on French Creek, Pennsylvania, where the greatest quantity and the most valuable oil is found Mr. McManomy has purchased for the company the most approved machinery, with sil the fixtures necessary for operation, and is preparing with experienced workmen the speedy development of the hidden treasure of the lands of the company.

All the indices of coal oil, found in localities where it has been procured, are strongly marked in various localities of the lands of the Company, affording every rational prospect of success. The company thinks it annecessary to make any other reference to the character of the lands, other than the report and map referred to. sloc,000 of the stock, being 2,000 shares, is proposed by the Company to be offered in the market at one-half its par value, being \$25 per share, for the purpose of aiding the Company in a speedy development of the lands.
